Subject: Amended Post-Closure Plan Approval

Dear Ms. Johnson:

On August 27, 2026, Ohio EPA received a request[1] from AECOM Environmental, on behalf of Parker Hannifin Corporation, for the Former Parker Hannifin Facility located at 11197 US Route 23 in Waverly, Ohio. In addition to the request letter, on August 27, 2026, Ohio EPA received a post-closure plan addendum. The request and accompanying addendum seek to amend the Post-Closure Plan[2,3] approved on October 4, 2001, and last amended in February 2026, and details the following change:

- Decommissioning of monitoring well MW-12R as part of site redevelopment.

In accordance with the table listed in the Appendix to Ohio Administrative Code (OAC) Rule 3745-50-51, my staff has recommended to the director of Ohio EPA that the request be approved as equivalent to a Class 2 permit modification (requiring review and approval). Therefore, the owner, operator, and the public were given the opportunity to submit written comments regarding the Amended Post-Closure Plan during the public comment period, which ran from September 23, 2026, through October 26, 2026. Ohio EPA did not receive any comments during the public comment period.

[3] http://edocpub.epa.ohio.gov/publicportal/ViewDocument.aspx?docid=2552580

Ohio EPA approves Parker Hannifin's above request to amend the Post-Closure Plan submitted pursuant to OAC Rule 3745-55-18, and accordingly, Ohio EPA has amended the facility's Post-Closure Plan. Compliance with the approved Amended Post-Closure Plan is expected. Ohio EPA will monitor such compliance. Ohio EPA expressly reserves the right to take action pursuant to Chapters 3734. and 6111. of the Ohio Revised Code, and other applicable laws, to enforce such compliance and to seek appropriate remedies in the event of noncompliance with the provisions of this approved plan. Please be advised that approval of this plan does not release Parker Hannifin from any responsibilities regarding corrective action for all releases of hazardous waste or constituents from any waste management unit, regardless of the time at which waste was placed in the unit.

You are hereby notified that this action of the director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within 30 days after notice of the director's action. The appeal must be accompanied by a filing fee of $70.00 (made payable to "Ohio Treasurer of State ") which the Commission, in its discretion, may reduce if, by affidavit, you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the director within three days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
30 East Broad Street, 4th Floor
Columbus, Ohio 43215

When post-closure is completed, OAC rules 3745-55-20 and 3745-66-20 require the owner or operator of a facility to submit to the director of Ohio EPA certification by the owner or operator and a qualified professional engineer that the post-closure care can be terminated in accordance with the approved post-closure plan. These certifications should be submitted to:

Ohio Environmental Protection Agency
Division of Environmental Response and Revitalization
P.O. Box 1049
Columbus, Ohio 43216-1049
Attn: ERAS Manager, DERR

A copy should also be sent to:

Ohio Environmental Protection Agency
Southeast District Office
Division of Environmental Response and Revitalization
2195 Front Street
Logan, OH 43138
Attn: Trevor Bratton

Alternatively, the certification can be submitted via email to eric.sainey@epa.ohio.gov and trevor.bratton@epa.ohio.gov or through Ohio EPA's eBusiness Center at ebiz.epa.ohio.gov.

If you have any questions concerning this letter, contact Trevor Bratton of my staff at trevor.bratton@epa.ohio.gov or (740) 380-5296.

Sincerely,

John Logue
Director
